

Message in a Bottle

WHILE MY SERVICE CLUB WAS CLEANING UP THE BEACH TODAY, I FOUND THIS MESSAGE IN A BOTTLE. IT'S FROM A **POLAR BEAR!** THE BOTTLE MUST HAVE FLOATED A LONG WAY SOUTH, FAR FROM THE ARCTIC OCEAN. IT SOUNDS LIKE THE POLAR BEARS REALLY NEED **HELP**. THE BEAR WHO SENT THIS MESSAGE IS NAMED NANUQ. HE USED A SPECIAL SNOWFLAKE CODE FOR SOME OF THE WORDS. CAN YOU HELP ME FIGURE THEM OUT? USE THE KEY BELOW. THANKS!

Dear Friend,

I'm writing from a drifting piece of _ _ _ in the Arctic Ocean. I don't know how long it will last. You've probably heard that a lot of ice here is _ _ _ _ _ , because the

earth's climate is getting too _ _ _ _ _ . That's very bad news for us

polar bears! We walk on ice to hunt. With less ice, we can't find enough _ _ _ _ _ . We're

good _ _ _ _ _ , but now the ice can be too far away. More bears get tired

and go hungry. Scientists say two-thirds of us could die in the next 50 years if something doesn't

_ _ _ _ _ . But you can help! If _ _ _ _ _ reduce pollution and use less

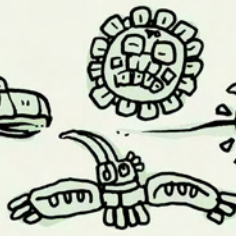

energy, the _ _ _ _ _ may not get so warm. Everybody can make

changes, and lots of small things can have a big effect—like

combining to make a giant snowball. When you have chances to recycle or turn off lights,

think about us up here in the _ _ _ _ _ .

Thank you for helping,
NANUQ THE POLAR BEAR
